RSS Grade rubber sheet latex we are collecting from on a daily basis. (Sometimes plantations on a yearly basis, as every day we are collecting latex from a particular time in the morning, it reach to the factory for processing to sheet form. After making pure white wet sheet from Automatic Rubber Sheeting Machine, then it goes to Automatic temperature adjustable smoke house, there it turns to Ribbed Smoked Sheet(RSS) after that we are grading & selling to different suppliers as per their requirements.

Manufacturing & Processing of from Natural Rubber Latex. This different rubber land owners we are leasing different rubber well as slaughter tapping too) Ones

different rubber land owners we are leasing different rubber well as slaughter tapping too) Ones

800 KG of RSS Grade Rubber Sheet we can daily produce with our Proposed labours, Machineries & Equipments. Our Service charge for manufacturing RSS sheet will be 20 Rupees per Kilogram

## Industry Analysis

## Rubber approaches 52-week peak amid Kerala lockdown; analysts see 6% upside in a month

By Sandeep Singh, ETMarkets.com • Last Updated: May 10, 2021, 11:04 PM IST

SHARE FONT SIZE SAVE PRINT COMMENT

India is the world's second biggest consumer of natural rubber, behind China, and the sixth largest producer. Kerala, which is the top rubber producer in the country, has imposed a complete lockdown from May 8 to 16. Rubber prices have risen around 13 per cent so far this year. Tightening of supplies has boosted prices in the recent past.

The broader rally in global commodities is supportive of rubber prices. However, lockdown restrictions could shake up demand from automobile industries. Rubber is a widely used industrial material with heavy demand from sectors such as automobiles, aeronautics, electronics, healthcare and power transmission.

### Technical view

Jain sees support for the near-month futures contract at Rs 17,040 and resistance at Rs 17,550. "If MCX rubber futures start to sustain above the Rs 17,550 level, further strength towards Rs 17,850-18,100 levels can be expected," he said.

Rubber is expected to touch the Rs 17,900-18,100 levels in the short to medium term, said Kshitij Purohit, Product Manager, Currency & Commodities, CapitalVia Global Research.

Ajay Kedia, Founder and Director of Kedia Advisory, recommends taking long positions in near-month rubber futures at Rs 17,340 for a target of Rs 17,900-18,500 with a stop loss at Rs 16,900 from a one-month perspective.

## Sales & Marketing Strategies

### Natural Rubber Market Overview

The global demand for natural rubber is predicted to grow at a CAGR of 4.8 % (2019–2023) and the production is set to touch ~17 MMT (Million Metric Tons) by 2022, from the current level of 12.43 million MT. By creating large scale domestic demand for rubber sheet and latex, there are several companies & traders are ready to purchase of Rubber sheet & latex from all type of rubber producer. Rubber production is a vital part of the industry of Kerala.

### Lower global production

Data from the Association of Natural Rubber Producing Countries (ANRPC) show that global rubber production dropped 8.7 percent to 7.78 million tonnes in January-August this year. The association expects production to be 6.8 percent lower at 12.90 million tonnes. Globally, rubber production has been affected by floods in South-East Asia apart from the leaf-falling disease.

## Targeted Customers

Natural rubber is one of the most important polymers for human society. Natural rubber is an essential raw material used in the creation of more than 40,000 products. It is used in medical devices, surgical gloves, aircraft and car tires, pacifiers, clothes, toys, etc.

These are the few companies, who can purchase of natural rubbersheet.

## Automatic Rubber Sheeting Machine

- This a successor to our 1999 model sheeting battery.
- There are four models starting from a speed of 150 sheets per hour up to 900 sheets per hour.
- Extremely compact machine
- Makes big, beautiful, thin sheets
- Sheets made using this machine dry quickly in the smoke house.
- Needs very little maintenance
- 95% of the components that go into the making of this machine are corrosion-resistant.
- Consumes very little power

### High Speed (5 pairs)

Motor HP	- 1.5
Motor phase	- 1 ph / 3 ph
Roller diameter	- 80 mm
Roller width	- 610 mm
No. of sets of rollers	- 5 pairs
Attainable speed	- 900 sheets/hr

**Price : ₹2,00,000/-**

## Rubber Sheet Washing Machine

This is an ideal machine for traders of raw rubber sheets. The rubber sheet washing machine easily removes fungus and dirt accumulated on the outer surface of rubber sheets thus adding value to the product. This machine is extremely fast, safe and easy to operate. It cleans anywhere between 1.2 tons to 2 tons of rubber sheets in an hour depending upon the operator's skill.

**Price of our Rubber Sheet Washing Machine - ₹ 1,50,000/-**

## Modern Smoke House

- Dries sheets in 36 hours against the normal time of 3–5 days
- Needs just 500 gm of firewood to dry 1 kg of rubber against the normal requirement of 1–2.5 kg of firewood
- No need to turn the sheets inside-out during the drying process
- RSS-3 sheets can easily be made
- The labourers need not get into the smoke house to put in the sheets and remove them.

### The Smoke House will include:

1. Trolleys
2. Rail sets
3. Insulated doors
4. Cast iron furnace
5. Patented quick-drying device
6. Digital temperature controller

### Exclusions:

1. All types of civil work and false ceiling work
2. Installation charges will be extra
3. Reapers to hang the sheets

**Price of our smoke house for 1,600 rubber sheets per day ₹ 6,00,000/-**
